The amendment received October 14, 2003 has been made of record. Claims 21-32 are pending.

Claims 21-32 are rejected under 35 U.S.C. 102(e) as being anticipated by Honda et al.

This rejection is maintained substantially as set forth in the previous office action. Applicants' arguments concerning the lack of disclosure by the reference of a linear thermal expansion coefficient of  $6.0 \times 10^{-5} / ^\circ\text{C}$  is not persuasive. This value is taken at a temperature other than that disclosed by the reference. However, for temperatures as disclosed by the reference, applicants values are anticipated. It is the position of the examiner that, since the reference uses polyphenylene sulfide as the polymer as does applicants, the compositions of the reference would inherently possess the thermal expansion coefficients as claimed by applicant at 80-130 C.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
